If you don't already have an email address you will need to set one up with a provider, for example, Yahoo, Gmail, Hotmail or Outlook.

Please make sure your email address does not:

• cause offence

• contain foreign characters, such as Ŗ Ŷ Ŭ Ŷ

We recommend you use a personal email address rather than one which is shared with other people.

Why do we need your email address?

We need your email address so that, once we have processed your application, we can send emails alerting you to changes to the status of your application, including decisions made by your chosen colleges or universities. Track is available on the UCAS website for you to use once we have processed your application.

Verifying your email address

Your email address needs to be verified as valid before you send your application to us. We will send you an email which contains a verification code and instructions - please add enquiries@ucas.ac.uk to your list of contacts. This should prevent our message being diverted into your junk or spam folder.

Once you've applied, you will also need to add your universities' or colleges' email addresses to your list of contacts.

Keep your email address up-to-date

If you use a different email address at a school or college, make sure you update it in the holidays and when you leave. You can update your email address in Track and will also need to verify it again.

Along with other information in your application, this helps universities and colleges to establish your status for the payment of tuition fees. You should not confuse your residential category with your ethnic origin.

The brief explanations below should establish your provisional status. You can also scroll down and answer the questions listed below to help you determine your status. The universities and colleges to whom you are applying will make the final decision on your category, and so all queries should be addressed to them. The different categories are as follows:

Student support

Fee code

Select one code from the drop-down list to show how you expect to pay for your tuition fees. Most applicants from the UK, Channel Islands, Isle of Man and the EU will be in category 02. You should use that code if you are eligible for assessment under student support arrangements, even if you think your family income will be too high for you to receive support.

The choices are as follows:

- **01 Private finance** - Entire cost of tuition fees is to be paid by private finance.
- **02 UK, Chi, IoM or EU student finance services** - Applying for student support assessment by local authority, Student Finance England, Student Finance Wales, Student Awards Agency for Scotland, Student Finance NI (Northern Ireland), Northern Ireland Education and Library Board, SLC EU Team, Channel Island or Isle of Man agency.

support towards tuition fees.

If you are applying for a mixture of courses involving more than one fee code, such as 02 and 05, enter the fee code that applies to most of the courses you have chosen.

If all or part of your tuition fees will be paid by an award from another organisation (for example, a National Health Service bursary, a company sponsor or a training agency), please choose the appropriate code. Bursaries for nursing courses are usually category 05. If you are currently applying for sponsorship, give the name of your first choice sponsor in your personal statement section. You can find out more about company sponsorship from a careers adviser. You should say in your personal statement if you plan to defer to the next academic year if your application for sponsorship this year is unsuccessful.

You should only use code 01 if you are paying all of your tuition fees from private finance and you are not eligible for assessment under student support arrangements.

A small number of universities and colleges do not receive public funding and their students may not get help towards tuition fees under the student support arrangements. Please refer to university and college websites and prospectuses for more information.

Have you ever lived or worked in the EU (excluding the UK), European Economic Area (EEA) or Switzerland?

These questions are about whether you and your family may have lived within the EU (excluding the UK), EEA or Switzerland. This is important in deciding the level of tuition fees you pay, what support you are entitled to, and where this support comes from. Universities and colleges, Government bodies and funding councils need this information to make an accurate decision about the fees you may be charged and any scholarships, bursaries and financial support available to you.

For further information about the financial support that is available if you are studying in the UK please visit the student finance page on the UCAS website.

Do you have a parent, step parent, spouse or civil partner who is an EU (excluding the UK), EEA or Swiss national?

Switzerland. This is important in deciding the level of tuition fees you pay, what support you are entitled to, and where this support comes from. Universities and colleges, Government bodies and funding councils need this information to make an accurate decision about the fees you may be charged and any scholarships, bursaries and financial support available to you.

Criminal convictions

Please read the help text. You should tick the box only if you have a relevant criminal conviction that is not spent.

☐ ? Criminal convictions If you have a relevant criminal conviction that is unspent, please tick the box; otherwise leave it blank. If you tick the box you will not be automatically excluded from the application process.

This question requires you to disclose whether you have a criminal conviction which is deemed both relevant and unspent. Universities and colleges need this information to help them reduce the risk of harm or injury to their students and staff. Please read the following carefully to help you in answering this question.

Do I need to tick the box?

There are two elements to the question we ask; if you answer Yes to both these elements, you will need to tick the box.

1. Is the conviction for a ‘relevant’ offence?
2. Is the conviction unspent?

No decision will be made on the basis of a ticked box at this stage. This information will be held securely and shared only with those institutions that you apply to.

Is the conviction for a ‘relevant’ offence?

This is the first element to the question we ask. Relevant offences include one or more of the following:

- Any kind of violence including (but not limited to) threatening behaviour, offences concerning the intention to harm or offences which resulted in actual bodily harm.
- Sexual offences, including those listed in the Sexual Offences Act 2003.
- The unlawful supply of controlled drugs or substances where the conviction concerns commercial drug dealing or trafficking (drug offences only involving possession are not relevant offences).
- Offences involving firearms.
- Offences involving arson.
- Offences involving terrorism.

If you were convicted outside the United Kingdom for an offence listed above, this is also considered a relevant offence.

For the purposes of this question, cautions, reprimands and final warnings are considered as convictions. Penalty notices for disorder (PNDs), anti-social behaviour orders (ASBOs) or other orders are not convictions, unless you have contested a PND or breached the terms of an ASBO or other order and this has resulted in a criminal conviction.

If your answer is ‘No’ to this question because you don’t have a relevant conviction, then you should not tick the box.

You don’t need to consider whether your conviction is unspent because it is not relevant and should not be disclosed in answer to this question.

If your answer is ‘Yes’ to this question, because you have a relevant conviction, you must then go on to consider whether the conviction is unspent (see below).

Is the conviction ‘unspent’?

You should only consider this question if you have a relevant conviction (see above), i.e. answered ‘Yes’ to the previous question.

A criminal conviction can become ‘spent’ after a period of time. The length of time it takes to become spent is defined by the Rehabilitation of Offenders Act 1974 and depends on the sentence or disposal made by the court following the conviction. Until that period has passed, the conviction is considered ‘unspent’ and you must tick the box.

Further convictions can impact when other convictions become spent. Sentences of over four years in prison cannot become spent.

Most cautions, reprimands and final warnings become spent immediately, so will not normally be ‘unspent’.

You can work out whether your conviction is spent by using an online tool – visit www.disclosurecalculator.org.uk. This only covers convictions made in England and Wales and is maintained by the charity, Unlock. UCAS and Unlock cannot
guarantee the tool’s accuracy or completeness. Neither charity assumes responsibility or accepts liability for any
damage or loss which may arise as a result of your reliance on it.
If you were convicted outside the United Kingdom, you will need to follow the same process above. If your conviction
would be considered unspent under the Rehabilitation of Offenders Act 1974, you must tick the box.
Convictions that are spent do not need to be disclosed, it’s only when you have one or more unspent convictions that
you must tick the box.

How will the university or college handle my application if I tick the box?

If you tick the box you will not be automatically excluded from the application process.
The information concerning criminal convictions will be passed to appointed persons at the university or college. In line
with good admissions practice (such as that created by Supporting Professionalism in Admissions (SPA)), they will
consider your criminal conviction separately from the rest of your application. During this consideration, they may ask
you to provide further information about your conviction. If they are satisfied, your application will proceed in the normal
way although they may add certain conditions to any offer they may make. Otherwise they will notify you of their
decision.
It is important to note that a failure to declare a relevant unspent criminal conviction is taken very seriously, and could
result in expulsion from your university or college. You should therefore seek advice before answering this question if
you are unsure how to answer it.
All information concerning criminal convictions will be treated sensitively, confidentially and managed in accordance with
the Data Protection Act 1998. You may find further details about how a criminal conviction declaration is handled
(including the right to appeal a decision) at the university or college website.

What if I receive a relevant criminal conviction after I have applied?

If you are convicted of a relevant criminal offence after you have applied, you must tell us and any university or college
that you have applied to, or may apply to, during the application cycle. Do not send details of the offence; simply tell us
and the universities and colleges that you now have a relevant criminal conviction. The universities and colleges may
then ask you for more details.

When might I need to disclose a spent conviction or caution?

If you apply for certain courses, you will be required to disclose whether you have any spent convictions, in addition to
this question about relevant unspent convictions. If this applies, you will be asked an additional question each time you
choose a relevant course. Please see the entry requirements for your course choices to see if this requirement applies
to you.

Disability/special needs

Universities and colleges welcome students with disabilities, and will try to meet your needs wherever possible. The information you give here will help them do this.

Category*
If you have a disability, special needs (including dyslexia or another specific learning difficulty) or a medical condition, please click See list and select the most appropriate option from the list.

If you feel you may have a disability, special needs or a medical condition that has not yet been medically diagnosed you should select the disability option from the drop-down list, and give further details of the circumstances in the free text box underneath.

If you do not have a disability, special needs or a medical condition, click See list and select No disability. If you do not want to give this information now, you should select No disability. However, you should tell your chosen universities or colleges as soon as you receive our welcome email.

Universities and colleges welcome students with disabilities, and will try to meet your needs wherever possible. The information you give will help them do this. We will also use this to monitor progress in equal opportunities in higher education.

Disability, special needs or medical condition categories:

- No disability
- You have a social/communication impairment such as Asperger's syndrome/other autistic spectrum disorder
- You are blind or have a serious visual impairment uncorrected by glasses
- You are deaf or have a serious hearing impairment
- You have a long standing illness or health condition such as cancer, HIV, diabetes, chronic heart disease, or epilepsy
- You have a mental health condition, such as depression, schizophrenia or anxiety disorder
- You have a specific learning difficulty such as dyslexia, dyspraxia or AD(H)D
- You have physical impairment or mobility issues, such as difficulty using your arms or using a wheelchair or crutches
- You have a disability, impairment or medical condition that is not listed above
- You have two or more impairments and/or disabling medical conditions

If you are concerned about disclosing your disability in your UCAS application, don't be. Generally, early disclosure will help support to be put in place for you.

Case studies
The following case studies were written by disabled students while they were studying at university or college and refer to each of the disability codes above. If you have a disability you may find them useful.

You have a social/communication impairment such as Asperger's syndrome/other autistic spectrum disorder
"After I disclosed my disability, my tutors had training on the difficulties that people with Asperger syndrome can have, and they made sure that I understood things that were discussed in group sessions. I was able to go into the conservatoire before term started to get used to the site, and the staff in the disability office made sure that there was a member of staff I could contact if I had any worries. One of the difficulties I have is when my routine changes, like at exam time, so I need lots of preparation for this, which my tutors and the disability office helped me with."

You are blind or have a serious visual impairment uncorrected by glasses
"At university I used a portable Braille note-taker and screen-reading software to help me use the computers. I also had access to a support worker who would help me to use the internet and printed material."

You are deaf or have a serious hearing impairment
"I went to the university to discuss my support before I started. I needed an interpreter for my lectures and a notetaker and SpeedText for some of my lectures in case my interpreter was ill. I asked about having some language support to help me with my grammar. As I was going on field trips, I needed an interpreter to come with me. I was provided with equipment for my accommodation too - a shake-awake alarm clock, a vibrating fire alarm, a textphone, a laptop and a printer."

You have a long standing illness or health condition such as cancer, HIV, diabetes, chronic heart disease, or epilepsy
"I have epilepsy, with frequent seizures, and I can find it hard to use my limbs. I have a note-taker, personal computer and some help with living, eg cooking. The best advice I can give to new students entering a conservatoire is to get as much information as possible and all the help you need."

You have a mental health condition, such as depression, schizophrenia or anxiety disorder
"I first decided not to disclose my disability because having to tick the mental disorder box in an application is not an easy thing to do! However, I reconsidered my decision this year and have made the university aware of my disability. I was pleased to know that this will stay highly confidential on my medical report. My university will provide me with extra time for sitting exams and I was told that my lecturers will take my situation into account."

You have a specific learning difficulty such as dyslexia, dyspraxia or AD(H)D
Specific learning difficulties are conditions such as dyslexia (very generally, difficulties in reading, writing and spelling), dyspraxia (generally, difficulties in planning what to do and how to do it) or dyscalculia (mathematical difficulties). Support can come in many different ways. "I used a separate room for exams along with extra time, tutors gave me handouts on blue paper, I used a Dictaphone to help put information into my long-term memory and I used a green or a blue overlay to help with other notes."

You have physical impairment or mobility issues, such as difficulty using your arms or using a wheelchair or crutches
"I have a support worker who helps me around campus and takes notes. I have two personal assistants who help me out in halls and my social life. I also have a computer in my room which allows me to work at my own pace. One issue was getting to class on time as it's often miles from the lift, but all the lecturers have been understanding and have moved to a room nearer the lift when they can."

You have a disability, impairment or medical condition that is not listed above
"I have eczema, asthma, hay fever, multiple allergies and a weak immune system. My personal tutor and I meet termly, she sends work home to me via email when I'm sick and can't attend classes and I have a computer so that when my eczema is bad and I have problems writing, I can work at home. I have adjustments to my room for my medical needs and I can get extra time for my coursework if I need it."

You have two or more impairments and/or disabling medical conditions
"On the UCAS application I had to indicate my needs, which I did as I have dyslexia and low hearing. I have a laptop computer with speech text and read-and-write software. I use mind-mapping software to plan all my ideas before I start an essay."

You may be able to get extra financial support or help with care. If your fee code is 02 or 05 you may be eligible for support from Disabled Students' Allowances (DSAs). Please give details of any special needs

To help your chosen universities or colleges prepare for you, please explain in the box provided if you will need any facilities or support as a result of your disability or special needs. This might include adapted accommodation, extra equipment, readers or interpreters or extra time to complete your course. If you do not know what facilities or support you need, please contact the Disability Officer at your chosen universities and colleges. You can find their contact details on the DSA-QAG website, and you could also visit them to make sure you are happy with their facilities. They may also ask you for more details to help them plan for you, as well as explain to you how they will keep any information you give them confidential.

You can find out more about access and facilities for students with disabilities from our website and from university and college websites, prospectuses and disability statements. In very few cases, one of your chosen courses may not be able to provide the facilities or access that you need. If this happens, you can ask us to let you choose a replacement course.

3. Student finance

Student finance explained
While at university or college you will have two main costs - tuition fees and living costs.

Most students will not have to pay anything up front. Depending on your circumstances, your course and where you study, you could get a range of financial support. The main types of finance are **tuition fee and maintenance loans** (which have to be paid back), and **grants and bursaries** (which don't).

There is also extra support for those with special circumstances, for example, if you have children or adult dependants, a disability, mental-health condition, or specific learning difficulty such as dyslexia or dyspraxia.

Repayments are based on future earnings and not on what you borrow. You only repay once you have left university and earn over a threshold.

Applying is easy and **you do not have to have a confirmed place** - simply use your first choice of course and change it online at a later date if you need to.

Share your application details
You can even choose to share some of the details from your UCAS application with the Student Loans Company, who administer loans for Student Finance England, making your student finance application even quicker.

Please enter details below, using the 'other' boxes only where the applicable option cannot be found in the lists provided.

Entering unit details for A levels is optional

Subject*

[Dropdown list]  ? Please enter the area of study, using any drop-down list as appropriate. In some cases a course code will be provided - please include this where given.

If your subject is listed more than once, e.g. Biology, Biology A, Biology B, please check your certificate or speak to your school, college or centre.

(Other)

Qualification date*

[Dropdown list]  ? Please select the month and year that you finished the qualification. If you are waiting to take the qualification or exam, please enter the month and year you expect this to be completed. The date you enter should be within the start and finish dates you entered for the school or college. If you are not sure, please check with your school or college.

If the year of the exam is not seen in the drop-down list, check that you have entered the correct attendance dates for the school. You can only select a qualification date that is within the attendance dates. You can alter the dates by clicking Edit on the school details on the main Education section.

Awarding organisation*

[Dropdown list]  (Other)  ? Please enter the name of the awarding organisation or exam board as shown on the certificate. If there is not enough space, choose a suitable abbreviation. If you are unsure of the name, check with the centre where you are studying / have studied the qualification.

Grade*

[Dropdown list]  (Other)  ? Please enter the level of achievement gained. Use the drop-down list where provided, or type the grade into the Other box if the options are not relevant. If you are entering an international qualification, please do not try to give a UK equivalent.

For qualifications that do not award a result and there is no drop-down list, please indicate whether you passed or failed the qualification.

If you have not yet taken the examination, or if the results have not yet been released, please select Pending from the drop-down list. If there is no drop-down list, leave the box blank.

Please state the highest level of qualification you expect to have before you start your course*
You cannot mark this section as complete until you enter your qualification details.

Below honours degree level qualifications

Most universities and colleges will require that you have some qualifications to show that you are able to undertake undergraduate study. From the drop-down list please select the highest level of qualification you expect to have before you start your course. This does not relate to the course you are applying to.

Honours degree level or above qualifications: this includes higher education qualifications at honours degree level or above only. For example, bachelor's degree with honours, master's degree, PhD.

Below honours degree level qualifications: this includes further education qualifications that you studied at school or college. For example, AS and A level, Scottish Higher and Advanced Higher, GCSE, Irish Leaving Certificate, International Baccalaureate, Higher National Certificate (HNC), Higher National Diploma (HND), foundation degree, Certificate of Higher Education (CertHE), bachelor's degree at ordinary level (without honours).

I will have no qualifications: this means that you will not have received any qualifications before you start a higher education course.

If you indicate that you do have qualifications, you must enter these in the qualifications section. Competition for some courses is so great that if you do not enter your qualifications, a university is unlikely to consider you at all.

Important: if you do not have any qualifications, you must enter details of paid work experience. To apply, you must have either qualifications or paid work experience.

If you do not have any qualifications, in your personal statement you should try to give evidence of other qualifications, skills or experience which may help your application.

7. Statement

Personal statement

Click 'save' within 34 minutes so that your work is not lost.

You have used 0 of 47 lines based on the preview and 0 of 4000 characters.

Your completed statement must be between 1,000 and 4,000 characters (maximum 47 lines) including spaces.

How to provide your personal statement

Your personal statement must be written in English (however, if you are applying only to Welsh universities and colleges, it may be written in Welsh).

You can enter between 1,000 and 4,000 characters or a maximum of 47 lines of text (including spaces and blank lines) for your personal statement.

We recommend you write your statement first and then copy and paste into your online application (but watch out for the character and line count - the processor, e.g. Microsoft Word, might get different values because it doesn't count tabs or paragraphs).

When you add your statement to your online application click 'save' regularly because it will time out after 35 minutes of inactivity. Check the layout and format of any text you’ve entered after you have saved it by using the 'preview' option.

Please note that you cannot use italics, bold or underlining in your personal statement - the system will automatically remove these when saved. This will not disadvantage your application.

If you are applying during Clearing, some universities and colleges may accept a shorter personal statement and so we relax the minimum 1,000-character limit at this time.

Before you can mark this section as complete you must click on 'preview'. The system will then tell you how many lines and characters are still available for your personal statement.

9. Pay and send

Important reminders

Please check the following carefully before you pay and send your application to us:

Course fees

Going to university or college is one of the biggest investments you can make. Have you checked how much it is going to cost you?

You can find out about student finance and course fee information in the UCAS search tool for the courses you are applying for.

Choices

Check your choices. Have you checked the course specific entry requirements and minimum entry criteria in the UCAS search tool?

Within seven days of the date on your welcome email you can swap the choice in Track. After seven days, and up to 14 days, call us to swap the choice for you. Remember universities and colleges will already have your application and it is much better practice to submit a correct application from the start.

Qualifications and education history

Don't forget that all subjects for which you have received a result must be entered, including those you have failed. Similarly, if you are waiting to take the final examinations or you are waiting for the final results, they still need to be entered. It is also important that you declare your full education history, including the most recent school, college or university you have attended or are currently attending. Failure to declare this information could result in your application being cancelled.

Tick boxes if you agree:

- I have read and agree to be bound by the declaration.

Terms of use

Click on the link to display the terms and conditions of use. Please read these carefully. If you do not agree, we will be unable to process your application further.

- I confirm that the information given on this application is true, complete and accurate and no information requested or other material information has been omitted.

Accuracy

Please tick to confirm the completeness and accuracy of the information given in your application. If you do not provide this confirmation, we will be unable to process your application further. Remember that the universities and colleges may at any time ask you to provide further evidence, such as exam certificates.

- I agree to my personal data being processed by UCAS and passed to my chosen educational establishments, and understand how my data will be used.

Data

Under the terms of data protection legislation we need your agreement to the processing and transfer of your details in data format to the universities and colleges you have chosen. If you do not agree, we will be unable to process your application further.
I accept that, if I do not fully comply with these requirements, UCAS shall have the right to cancel my application and I shall have no claim against UCAS or any higher education institution or college in relation thereto.

**Right to cancel**

Please indicate your acceptance that we have the right to cancel your application without refund should it be found that you have not complied with the terms and conditions, and that in such circumstances you would have no claim against us or any university or college. 10. Help

Welcome
Please make sure that you have read all relevant information on this page before continuing with your application.

Click on the links to the left of the screen to access each section. Please read the information and help provided before completing the sections.

Your details
Many of the fields will have been filled in automatically with information taken from your original registration details. However, your details may have changed since then. Please amend if and where necessary, using the drop-down boxes where provided.

In this section you are also asked to provide further details required by your chosen universities and colleges. Many of these are needed so that they can decide what tuition fees you should be charged and what entitlements or special requirements you might be qualified to receive. To do this they need to know your residential status, where/whether you will be looking for funding and/or sponsorship, and if you have any special needs or disabilities which they would need to address. As part of their duty of care to all applicants/existing students they will also need to know if you have any relevant criminal convictions.

Additional information
The information you give in this section includes details of any non-examination-based activities you have undertaken in preparation for higher education, together with other information designed to help us and the universities and colleges to monitor applications and equal opportunities.

The activities in preparation for higher education take place at all times of the year, and may go under another name, such as summer schools, Saturday university, campus days, summer academies, taster courses and booster courses. If you have not taken any such course, please leave the related sections blank. These activities do not include attendance at open days.

You can enter a maximum of two activities: if you have attended more than two, please list the two most recently attended together with the appropriate start date(s). You can add details of these activities, and any others you have taken, to your personal statement.

Student finance
If you live in England, Wales, Northern Ireland or Scotland
If you will be applying for student finance to help with tuition fees for your course and living costs, you can make the process easier by allowing us to share some of your application details with your student finance company.

If you live in England, Wales or Northern Ireland we would like to share your information with the Student Loans Company (SLC). If you live in Scotland we would like to share your information with the Student Awards Agency for Scotland (SAAS). This information will be used by the SLC or SAAS in connection with any finance application which you may choose to make in the future.

If you have requested a reminder, we will contact you by email when the application process for student finance opens in your region.

If you live in another European Union country, the Channel Islands, the Isle of Man or you are an international student

We have provided student finance information and links to relevant websites where you can find further guidance. Please read this information and tick the box to confirm you have done so.

Choice summary
This page gives you a summary of the choices you have made so far and states how many choices you have remaining. You can choose up to five courses, which Apply will arrange into alphabetical order. The order of your choices does not indicate any preference order - your application will be sent to all chosen universities and colleges at the same time.

Please be aware that if you apply for a course after the relevant deadline, the university or college may close the course and you won’t be considered. Check the UCAS search tool to see which courses are open and check the when to apply page on ucas.com for deadline dates.
Remember, you can only complete one UCAS application for this application year so make sure these choices are ones you really want.

- If you wish to amend any of the information displayed click Edit and change as desired.
- If you change your mind and wish to delete a choice please click Remove next to the choice you wish to delete.
- Once you have added all your choices tick the Section completed box at the bottom of this page and click Save. There are some restrictions to the combination of courses that you choose. You must read the choices information on the UCAS website before completing this section.

**Education**

This page shows you a summary of the names of schools, colleges or universities you have entered, the month and year in which you started and finished, or are due to finish, and the type of attendance.

You must enter at least one school, college or university. Click Add new school/college/centre to add a school, college or university.

Once you have entered the schools, colleges or universities you have attended, please click Save. An Add qualifications link will then be displayed beneath the centre's details. Click on this link to add qualifications that you have taken / will be taking at that centre.

All qualifications must be entered, even if you received an unsuccessful grade, if you are still waiting to take the final exams or if you are waiting for the results.

If you are resitting a qualification you need to enter it twice: once as a completed qualification with the grade achieved and once as a qualification with the result Pending.

If you do not enter any qualifications, a warning message will appear on screen when you mark this section as complete. If this is correct, please ignore the warning message.

**Important:** if you do not enter any qualifications, you must enter details of paid work experience. To apply, you must have either qualifications or paid work experience.

**Employment summary**

In this section we require the names and addresses of your most recent employers. You can enter details of up to five different periods of employment. The details of the jobs that you have entered are displayed on this page.

To enter a job, click Add an employer.

Please enter both full-time and part-time jobs in this section – this includes weekend and holiday jobs. If you have not had any paid work experience, you can leave this section blank, but you will need to mark it as complete by ticking the Section completed box and clicking Save.

If your work experience has been unpaid, please include the details in your personal statement and not in this section.

If this section is too small (for example, if you have had several jobs) and you feel more information would benefit your application, you should contact your chosen universities and colleges to ask if you can send further information direct to them. Only send further information once your application has been processed by us and please include your Personal ID. You can also use the space provided in your personal statement.

Please check that all of the information is correct before proceeding.

If you need to amend any of the information, click Edit for the appropriate section. To delete an employer's details, click Remove.

If you are happy that the information entered is correct, mark the section as complete and click Save.

**Important:** if you have not entered any qualifications you must enter details of paid work experience. To apply, you must have either qualifications or paid work experience.
Preview (Statement)
This screen displays your personal statement as it will be seen by your chosen universities and colleges.

The number of characters/lines you have used are displayed. If any lines are missing from your personal statement, this may be due to it exceeding the maximum amount of characters/lines as shown on the preview screen. You can amend your personal statement by clicking Edit.

If you prepared your personal statement using a word-processing package and pasted it into Apply, you may find that any paragraph spacing that you included is not displayed. Don't worry - your chosen universities and colleges will receive the original formatted version.

Once you are happy with the information you have entered, tick the Section completed box and click Save.

Reference section
This screen displays your referee's details. If there is a red tick next to 'reference' in the navigation, it means that your referee has submitted your reference. The reference will be attached to your application when you send it to us. You cannot view the reference, only your referee's details.

Your referee's details cannot be changed now that the reference has been submitted.

Click on the Edit button to change the dates when you are unable to attend an interview, then click Save.

View all
If you wish to edit any of the information in your application, click Edit for the appropriate section. This will take you back to the original page. Please click Save once you have completed any amendments.

If you have entered European characters that are not in the English alphabet, there will be a tick box next to that section on this screen. Not all universities and colleges can view these characters correctly, so a version with substituted English characters is also made available to them. Tick the box to agree that you are happy for the European characters to be substituted with English characters. Fields that allow European characters are marked with an Æ.

Please check these details carefully. We recommend that you print this page for your own records by clicking the Print page link at the top of the Apply screen.

Important reminders
Before you send your application, make sure you know the course fees and entry requirements for the courses that you have chosen.

Also check that you have entered all your qualifications to your application - all qualifications must be entered, even if you received an unsuccessful grade, if you are still waiting to take the final exams or if you are waiting for the results. Check the qualifications advice on our website for details on how to add your qualifications.

Options
Please read through the options below.

Change your login details
If you think that someone else knows your password and/or any of your security questions and/or answers, you may wish to change them. To amend your security details, click Change my password and security questions/answers.

Link your application to a school, college or other organisation
If you would like to request that your application is linked to a school, college or other organisation, click Link your application to your school, college or organisation. Linking your application to a centre means that they will approve your application, write and attach your reference, and send your application to us. If they accept your request, the Reference link will be removed from your application.

You will need to enter the centre's buzzword on the next screen. We will then send your request to the centre who will decide whether to accept or decline your application. A buzzword is a word or phrase that will be given to you by your tutor or adviser.

Request a reference from a registered school, college or other organisation
If you are applying independently but would like your reference to be written by a registered school, college or other organisation, click Ask a registered school, college or organisation to write your reference only. This means that the centre can write a reference for you but they will not be involved in any other part of your application. Once they have completed the reference, a red tick will be displayed next to Reference section in the left-hand navigation.

You will need to enter the centre's buzzword on the next screen. We will then send your request to the centre who will decide whether to accept or decline your reference request. A buzzword is a word or phrase that will be given to you by your tutor or adviser.
