

EXACT_000005

Client Name: UCAS

Statistics Requested: Number of Applications, Number of Unique Applicants, Number of Acceptances

Summary: Breakdown of Provider Name 2017 (Masked), Subject Group (Detailed Level) filtered to for subject lines F3, H6, I1, and I2 at End of Cycle.

Years: 2008 - 2010. Year is defined as cycle year, when the application was processed, rather than entry year.

Cycle Reference Point: End of Cycle.

Technical notes and definitions

Subject Group (Detailed Level)

Classifies courses into a detailed level of 215 subjects. Each course is assigned up to three valid JACS3 subject codes (e.g. G100 – Mathematics) and a course balance indicator by UCAS, which are available for review by the provider. The course is assigned a subject based on these JACS3 subject codes and balance indicator, it largely correlates to the first two characters of the subject codes. Where there are more than one JACS3 subject codes for a given course, and the balance indicator is dual or triple, the first two characters of each subject code are reported in combination to a relevant category (e.g. Course with dual balance indicator with JACS3 subject codes L370 = Social Theory and M900 = Others in Law is assigned a subject 'Y Combs of soc studies/law'). Please note: Between 2007 and 2011 the subject codes assigned to each course were from the JACS2.0 classification, therefore JACS3 versions of the subject categories have been approximated for 2007 to 2011 to allow a consistent time series.

Provider Name 2017 (Masked)

A masked view of Provider Name (2017) with providers displayed as 'Provider' followed by a randomly generated number, to avoid disclosing information.

Number of Applications

Application is defined as a choice to a course in higher education through the UCAS main scheme. Each applicant can make up to five choices, which was reduced from six in 2008. The number of applications does not include choices made through the following acceptance routes: Clearing, Extra, Adjustment and RPAs.

Number of Unique Applicants

The number of applicants making at least one choice through the UCAS main scheme (which excludes Clearing, Extra, Adjustment and RPAs). Each cell gives the number of unique applicants. E.G. If split by subject group an applicant is counted once within each subject group of the course applied to.

Number of Acceptances

Acceptance is defined as an applicant who has been placed for entry into higher education. RPAs are included in the total. An RPA (record of prior acceptance) is an application submitted to UCAS by an institution when an unconditional firm has already been offered and accepted by the applicant.

Disclosure Controls

Disclosure controls have been applied to the data to reduce the risk of disclosing personal data about identifiable individuals.

For counts, the controls include reporting each cell count to the nearest five. In particular cell counts of 1 and 2 are reported as 0. Rows that only report 0 are omitted from the output. These controls are applied to each cell independently so this may result in instances where totals do not equal the sum of the components.

For derived statistics (e.g. means), to ensure these disclosure controls are not undone, a minor adjustment is applied, if necessary, such that the set of records contributing to each cell matches the reported cell count (to the nearest five). This involves either removing 1 or 2 records at random, or adding in 1 or 2 duplicates at random. If the number of values contributing to a cell is 1, 2 or 0 then it is displayed as 'N'. Rows that only report 'N' are omitted from the output.
