Accidents and near misses

If you are involved in or witness an accident or near miss while on-site, please report it to the organiser's office immediately, on the first floor.

A 'near miss' is an incident that doesn't result in personal injury but is purely down to luck – next time, the person involved might not be so lucky. Research has shown there is a clear link between near misses and accidents. Reporting of near misses or unsafe conditions can help prevent accidents occurring, as well as helping to promote a safer working environment, not just for employees, but for anyone who visits the site. Data compiled from near misses and accident reports can help highlight trends and hazards not previously identified.

Accessibility

Full details on accessibility can be found on the Brighton Centres Webpage:
