Technical notes and definitions

Sex
Sex as declared by the applicant.

Parliamentary Constituency 2010
The set of 650 Westminster parliamentary constituencies which came into effect at the 2010 General Election. There are 533 in England, 59 in Scotland, 40 in Wales and 18 in Northern Ireland. Parliamentary constituency is mapped from the postcode declared by the applicant via the lower layer super output areas. Please note: Parliamentary Constituency 2010 is only relevant for applicants domiciled in the UK, therefore any applicants domiciled outside of the UK are classified as 'Not UK' and applicants domiciled in the UK with no valid declared postcode are classified as 'Not assigned'.

ABB+ Applicant
Indicates an applicant with high grade qualifications. It uses high grade combinations used in the number control arrangements for most courses in England. They approximate the categories that relate to the Higher Education Funding Council for England (HEFCE) student number control arrangements from information recorded in the UCAS system. The assessment of entry qualifications uses a number of data sources including information provided by applicants themselves.

Number of Applicants
Applicant is defined as a person who has made a valid application in the UCAS system. RPAs are included in the total. An RPA (record of prior acceptance) is an application submitted to UCAS by an institution when an unconditional firm has already been offered and accepted by the applicant.

Number of Acceptances
Acceptance is defined as an applicant who has been placed for entry into higher education. RPAs are included in the total. An RPA (record of prior acceptance) is an application submitted to UCAS by an institution when an unconditional firm has already been offered and accepted by the applicant.
