Summary: Breakdown of SIMD Quintile 2012 , Subject Group (Detailed Level) for applicants domiciled in Scotland and subject group C only.

Years: 2012 - 2016. Year is defined as cycle year, when the application was processed, rather than entry year.

- i. The percentage of the overall population remaining once the filter is applied.
- ii. The percentage of cells displaying 0 once the suppressions are applied.
- iii. The percentage of records contributing to the cells displaying 0 once the suppressions are applied. Please note that, in line with disclosure controls, if there are less than 3 records suppressed in a given year then the percentage is automatically set to 0%.

- v. A frequency of every value for each variable requested if the number of possible values is more than 10.
