DR3_029_03 Applications by detailed subject group and disability

UCAS

Statistic: Number of Applications

Variables: Subject Group (Detailed Level) , Disability Indicator , Cycle Year

Coverage: Applications through the main scheme and UK domiciled

Definitions

Disability Indicator

Indicates whether the applicant has declared a disability on the application by selecting from a list of available options. These options include, but are not restricted to, learning difficulties, serious visual or hearing impairment, physical impairment, mental health conditions and long standing illness.

Subject Group (Detailed Level)

Classifies courses into a detailed level of 215 subjects. Each course is assigned up to three valid JACS3 subject codes (e.g. G100 – Mathematics) and a course balance indicator by UCAS, which are available for review by the provider. The course is assigned a subject based on these JACS3 subject codes and balance indicator, it largely correlates to the first two characters of the subject codes. Where there are more than one JACS3 subject codes for a given course, and the balance indicator is dual or triple, the first two characters of each subject code are reported in combination to a relevant category (e.g. Course with dual balance indicator with JACS3 subject codes L370 = Social Theory and M900 = Others in Law is assigned a subject 'Y Combs of soc studies/law'). Please note: Between 2007 and 2011 the subject codes assigned to each course were from the JACS2.0 classification, therefore JACS3 versions of the subject categories have been approximated for 2007 to 2011 to allow a consistent time series.

Cycle Year

The cycle in which the application was processed.

Number of Applications

Application is defined as a choice to a course in higher education through the UCAS main scheme. Each applicant can make up to five choices, which was reduced from six in 2008. The number of applications does not include choices made through the following acceptance routes: Clearing, Extra, Adjustment and RPAs.
