

# End of Cycle 2017 Data Resources

## DR2\_029\_06 Applicants by disability, age, sex and domicile

UCAS

**Statistic:** Number of Applicants

**Variables:** Disability Indicator, Age Band, Sex, Applicant Domicile (High Level), Cycle Year

**Coverage:** Applied before June deadline and UK domiciled

### Definitions

#### Age Band

Derived from date of birth declared by the applicant, age is aligned with the cut off points for school/college cohorts within the different administrations of the UK. For England and Wales ages are defined on the 31 August, for Northern Ireland on the 1 July and for Scotland on the 28 February the following year. Defining ages in this way matches the assignment of children to school cohorts. For applicants outside of the UK the cohort cut off for England and Wales has been used. Age then is grouped in the following bands: '17 and under', '18', '19', '20', '21 and Over'. Please note: if the derived age is outside of the range 11-100 then it is set to 18 by default.

#### Applicant Domicile (High Level)

Applicant's area of permanent residence summarised at a high level, individual UK country. This variable is derived from domicile as declared by the applicant and does not guarantee fee status. See the additional technical notes at [www.ucas.com](http://www.ucas.com) for coverage and trends for Scotland.

#### Disability Indicator

Indicates whether the applicant has declared a disability on the application by selecting from a list of available options. These options include, but are not restricted to, learning difficulties, serious visual or hearing impairment, physical impairment, mental health conditions and long standing illness.

#### Sex

Sex as declared by the applicant.

#### Cycle Year

The cycle in which the application was processed.

#### Number of Applicants

Applicant is defined as a person who has made a valid application in the UCAS system.
