

End of Cycle 2017 Data Resources

DR4_015_03 Applications by provider and SQA

UCAS

Statistic: Number of Applications

Variables: Provider Name, Holds SQA Qualification, Cycle Year

Coverage: Applications through the main scheme and UK domiciled

Definitions

Provider Name

The Higher Education Provider (HEP) at the time of the application. This does not take into account any mergers or rebrands, for example if HEP A and HEP B merged to become HEP A in 2012, all applications and acceptances will be reported as HEP A from 2012 onwards. Prior to 2012 all applications and acceptances will be reported as HEP A or HEP B as appropriate.

Context notes:

University of East London (E28): In the 2017 cycle a large number of RPAs were not recorded for the University of East London (E28). The actual values for the total number of placed applicants and the number admitted through RPA for this provider will be 862 higher than those reported.

***Further context notes provided by individual providers marked with an asterisk are available to view on www.ucas.com.**

Holds SQA Qualification

Indicates if an applicant has achieved an SQA higher or advanced higher qualification (at least one) as identified either on application or through awarding body linkage process. Please note: This flag is not updated beyond the end of the application cycle for each applicant. (I.e. if an applicant applied in the 2008 cycle without achieving an SQA, but went on to obtain this qualification in 2009, the value for the applicant applying in 2008 would remain 'SQA qualification not identified'.)

Cycle Year

The cycle in which the application was processed.

Number of Applications

Application is defined as a choice to a course in higher education through the UCAS main scheme. Each applicant can make up to five choices, which was reduced from six in 2008. The number of applications does not include choices made through the following acceptance routes: Clearing, Extra, Adjustment and RPAs.
