Notes:

1)   ApplicationSchemeCode.
        This field will provide a 4 character code (for example UC01, CU01 etc…). This code was provided for the first time for applicants in 2009. UCAS has replaced the Application Number with this code.

        Institutions should use an applicant's Personal ID and Application Scheme Code as the unique identifier for their application.

2)   ScottishCandidateNumber.
        All students who have not submitted a valid SCN will be assigned the default value of '999999999', including those who have not taken Scottish qualifications.

3)   Area of Permanent Residence.
        The first two characters are the HESA code, the third and fourth characters are padding spaces.

4)   Nationality.
        The first two characters are the HESA code, the third and fourth characters are padding spaces.

5)   Year Left School.
        This is the value reported by the student in their application, taking the latest year of attendance at a school or college. This is provided as a four digit number.
        If not known, this will default to '9999'.

6)   HighestQualification.
        This is taken from the information reported by the student and Awarding Bodies.

7)   SubjectQualificationaim.
        This is the subject assigned to the course by the HEI when the course was registered with UCAS. It is a valid JACS2 code, with the exception of Codes G000 and G900. These are not valid entries in this field and will need to be recoded.

8)   Subject Percentage.
        The default percentages will be
        Singlesubject: 100
        Balanced: 50 for each of the two subjects
        Major – Minor: 67 and 33
        Triple: 34, 33 and 33

9)   Postcode.
        This is will be taken from the applicant's Home Address where provided. Otherwise it will be taken from the Correspondence address.
        Non UK students will have a null value, unless the student has provided a code, in which case it will be passed on (but may fail validation).

10) Previous Institution.
This is the application centre for UK school students. UK non-school students and international students have default codes assigned, which will be overwritten where coding is possible from the last educational establishment text provided by the applicant.

The PREVINST coding frame has been changed. Where the PREVINST field was previously populated with 9999 for 'Not Known' the default codes will be applied based on the criteria below.
