

EXACT example file

Nursing: gender, age, and domicile

EXACT_000001 – This covers applicants applying to subject group (detailed level) B7 – nursing, and entry years for the last eight entry years. The dimension variables are age band (detailed), sex, and applicant domicile (high level). The statistics are applications and acceptances. As in the technical notes, entry year is defined as academic year of intended entry to higher education, rather than cycle/application year.
