Nursing: gender, age, and domicile

EXACT_000001 – This covers applicants* applying to a course with an element of CAH02-04 nursing and midwifery, and entry years for the last five entry years. The dimension variables are age band (detailed), gender, and applicant domicile (high level). The statistics are applications and acceptances. Entry year is defined as academic year of intended entry to higher education, rather than cycle/application year.

⊞ EXACT CSV output (22 KB)

✱ An applicant is an individual. Each applicant may submit up to five applications or choices during the main scheme application window.
