B.5 Technical notes and definitions

Applicants have been able to submit applications for all 2014 courses since early September.

This statistical release covers all applicants, including those who have applied for courses with a 15 October deadline.

Applicant totals are those at the third Monday of the month for each cycle (the 'interim comparison point').

The date of the interim comparison point varies from cycle to cycle. For the November interim comparison point the dates for the 2010 to 2014 cycles are 16/11/2009, 15/11/2010, 21/11/2011, 19/11/2012 and 18/11/2013 respectively.

Cycle to cycle proportional changes at the interim comparison points before the January deadline are often different (in both size and direction) from the proportional changes at the January deadline.

Counts of the number of applicants reported have been rounded to the nearest 10, this may result in instances where totals do not equal the sum of the components. Proportional changes are calculated from unrounded data and are presented rounded (to nearest 1 per cent or 10 per cent as appropriate).

Applicants

Individuals who have made an application through UCAS during the cycle reported (including applications for deferred entry.)
