# **UCAS Teacher Training End of Cycle 2016 Data Resources**

## UTT1\_007\_01 Acceptances by age and domicile

Statistic: Acceptances

Variables: Age (7 levels), Applicant Domicile (UK/EU/Not EU), Cycle Year

Coverage: All

### Definitions

#### Age (7 levels)

Derived from date of birth declared by the applicant, age is aligned with the cut off points for school/college cohorts within the different administrations of the UK. For England and Wales ages are defined on the 31 August, for Northern Ireland on the 1 July and for Scotland on the 28 February the following year. Defining ages in this way matches the assignment of children to school cohorts. For applicants outside of the UK the cohort cut off for England and Wales has been used. Age then is grouped in the following bands: '21 and under', '22', '23', '24', '25-29', '30-39', '40 and over'.

Teacher Training

#### Applicant Domicile (UK/EU/Not EU)

Applicant's area of permanent residence summarised at a high level. This variable is derived from domicile as declared by the applicant. Split by the following values: 'UK', 'EU (excluding UK)' and 'Not EU'. Please note: The Channel Islands and the Isle of Man have been assigned as 'Not EU'. See the additional technical notes at www.ucas.com for coverage and trends for Scotland.

#### Cycle year

The application year in which the application was processed.

#### Acceptances

An acceptance is defined as an applicant who has been accepted to start a programme through the UCAS Teacher Training scheme.
